Experience

PayPal, Boston, MA   July 2013 - Present
iOS Software Developer

- Worked on an agile team of 9 developing the 2.0 version of PayPal Here for iOS including refactoring and combining the codebase between iPhone and iPad, implementing a complete redesign, and using CSS instead of XIBs.
- Responsible for implementing the check-in feature that allows the PayPal consumer app to interact with the PayPal Here app. Added an overlay manager to control a stack of overlay views by ordering, addition, and removal.
- Continued to work part time for the global and iPad releases. App Store link: https://itunes.apple.com/us/app/paypal-here-accept-credit/id505911015?mt=8
- Won first place for Boston in a PayPal engineering hackathon for developing an iOS plugin to make reporting bugs easier including creating tickets in the Rally project management tool.

TapWalk, Boston, MA   June 2011 - December 2011
Software Developer

- Extended an iOS app with new screens and fixed bugs.
- Refactored a Ruby on Rails administrative web app, which manages the iOS app, and added new features.
- Met with clients to present app in development and update based on feedback.

PSVitaForum.com, Boston, MA   January 2011 - June 2014
Founder, Developer

- Setup and optimized a Linux VPS for hosting a forum.
- Lead a staff of moderators who manage 7,500 registered users and over 250,000 posts.

Northeastern University, Boston, MA   January 2011 - April 2011
Tutor for Logic and Computation

- Held office hours to answer students' questions, assist in labs, grade exams and homework assignments.

Interests

Eagle Scout, Game Development, European Soccer
